

INDIAN TROUBLES.

They Seem to be Simmering Down.

THE END OF A BANK RUN.

The Influenza Again Prevails in Hungary.

Baring's Successors Register Articles of Association.

The Indian Scare.

WASHINGTON, Nov. 24.—Several dispatches from General Miles were received at the War Department this morning. The substance of them is mainly confirmatory of the news already received from the West.

General Brooke, in command there, reports that he is secure in his position, and that the friendly Indians are coming to the agency in increased numbers.

MINNEAPOLIS, Nov. 24.—A Journal's Pierre, S. D., special says: This is ration day at the Cheyenne Agency, and the Indians are congregated there in large numbers. The scare is subsiding. Indian Agent Norville, who has just returned from the Bad river country, says the Indians there are abandoning the dances.

SEAWANO (Wis.), Nov. 24.—There was a serious outbreak Saturday afternoon on the Menominee reservation. A hundred and fifty armed Indians surrounded the logging camp of Henry Sherry, killed the horses and oxen, and destroyed the camp outfit. The thirteen white men, who were unarmed fled for their lives. The Indians claim that the white men were trespassing.

Coal Dealers' Failure.

PITTSBURG, Nov. 24.—Thomas Fawcett & Sons, one of the largest coal firms in this city, assigned this morning. The liabilities are estimated at \$300,000. The members of the firm say their assets will exceed this amount by \$150,000.

Judgments aggregating \$150,000 were entered by the Central Bank this morning, and all property of the firm was levied upon to satisfy the claims. The liabilities are \$400,000, with assets of about \$600,000. The firm has been carrying a large amount of paper, and for two months it was known that they were about to give up the fight. The failure will have no effect upon the Central Bank, as it is amply protected. The failure is attributed to the long continued depression of the river coal trade.

Another Failure.

NEW YORK, Nov. 24.—Edward Brandon, a member of the stock exchange since 1854, has failed. It is said that all through the recent decline Brandon carried a large line of stocks, but after losing an immense amount of money on the bull side, he turned bear and sold stocks short and was caught in the rapid advance that followed. The assignment was made to Robert S. Miller, with preferences aggregating \$175,000.

Death of an Octogenarian.

VACAVILLE (Cal.), Nov. 24.—Jefferson Gates, the second Octogenarian resident of this valley to die this week, died yesterday, aged 86. He was born in Virginia, and arrived here in 1866. He leaves three sons, all well-known fruit growers, and two daughters.

Will Be Appealed.

MINNEAPOLIS, Nov. 24.—A Winnipeg special says Judge Killam to day delivered a decision against an appeal by the Roman Catholics against the Act passed by the last Legislature abolishing separate schools. The case will be appealed to England.

More Influenza.

PESTH, Nov. 24.—An epidemic of influenza is prevailing in Fuenkirchen, Hungary, and a thousand persons are sick. A conference of doctors has been called.

End of a Bank Run.

NEW YORK, Nov. 24.—The run on the Citizens Savings Bank is practically over. This morning only fifty depositors called for their money.

A South Carolina Riot.

CHAMBERS (S. C.), Nov. 24.—A telegram from the Sheriff at Sumter says the riot has subsided, and that twelve of the ringleaders have been arrested and are on trial.

Two Court Cases.

SAN FRANCISCO, Nov. 24.—The jury in the case of Millie Panhorst, charged with the murder of Samuel Goldberg, was completed to-day and the case adjourned until to-morrow.

The suit of Sarah Althea Terry and David Terry, her deceased husband against, U. S. Marshal Franks, which has been pending in the Superior Court for the past two years, was transferred to-day to the U. S. Circuit Court, and the attorney for the defense moved to dismiss the case for a failure to secure a summons within that time.

The Baring Successors.

LONDON, Nov. 24.—The articles of association of the company acquiring the business of Baring Bros. & Co. were registered to-day.

Bar silver 103 1/2.

WINTER FASHIONS.

What is There in Life if You Do Not Keep Up With the Fashion? Buttons will be used ornamentally, especially artistic ones, painted by hand with gracefully fantastic designs, heads of women or children, etc.

Sleeves of young girl's evening dresses are often made with the sleeve opening on the outside of the arm to show the point of the shoulder.

The new dress material of the season is called "Cotlet," and is a ribbed fabric resembling closely the material used for men's clothes.

Basques are cut longer, and what is called three-quarter length will be the most popular.

Spots are a decided feature in fashion, and some of the gowns look as if peppered all over with lozenges; for instance, a black Velours du Nord, covered all over with large white lozenge-shaped spots of somewhat larger pile than the ground work, is bordered with fur and has a sword belt trimming carried across the bodice of white worked in silver, the ends falling at the back. The sleeves are long and large, falling over the hands like the Marguerite gowns.

A very handsome outdoor costume is in myrtle-green velvet, extremely simple in style, yet most artistic. The full sleeves are finished by ruffles of Brussels applique, and where the bodice crosses over to the left there is a frill of the same lace. Below the waist is arranged a silk sash of the same shade, with ends like an old-fashioned neckerchief, gilt head lines interspersed in a deep silk fringe.

Satin antique, says the Court Circular, is to be the fashion in the most distinguished circles this winter. It is not to be confounded with the moire antique, and dates from the costumes of the grandes dames of the sixteenth century.

TRUCKEE NEWS ITEMS.

New Sidewalks—A Good Sale—The Ice Crop—Etc.

The Truckee Republican of the 22d inst. says: Plank sidewalks are being put down on Front street for the winter, and in the spring will be replaced by artificial stone. This is another commendable step.

The safe of J. G. Booth, which passed through the recent fire, has been opened and found not to be the least damaged on the inside. It is the second warning to which it has been treated.

Hatchet and saw are busily engaged in erecting a dance-house and saloon across the river, east of the bridge. There are under construction two large buildings, and it is presumed there will be more to follow. The fondest hopes of the people of Truckee have been raised in this matter, and the struggle is now at an end, the result having been accomplished with a few harsh words and no bloodshed. Main street real estate will row be in demand at advanced prices.

A repetition of the struggle to obtain ice which occurred here last year promises not to occur this winter. Ice at present is about eight inches thick, and constantly increasing. Should we be visited by a heavy snowstorm, the ice will easily bear up the weight of a team, and the "beautiful" can be removed without much cost or trouble to the companies. The Mountain Ice Company commenced operations last year on the 9th of December, and one other company began about the 4th or 5th of the same month.

THE TIN-PLATE INDUSTRY.

How It is Affected by a Democratic Political Victory.

A leading Eastern free trade paper tauntingly alludes to the scheme for manufacturing tin-plate at Pittsburg as something which has dropped out of sight since the election and intimates that the report was merely an election dodge. Pittsburg papers state that the Democratic Congressional victory has stopped the enterprise for the present. No firm can afford to invest a million dollars in a plant with a prospect of being subjected to foreign competition by the next Congress. This is one of the evil effects of Democratic victory upon American industries. The Republican hold upon the Senate will be too precarious to warrant capital in risking much on it, although it may prevent the worst effects of Democratic destructive policy.

A Train Incident.

"That's Governor Boggs, sah," said the polite Pullman porter, answering the inquiry about a distinguished looking old gentleman, with grey beard and a silk hat. "And who is Governor Boggs?" said the inquirer. And the porter answered under his breath, "D—d if I know, sah."

A VIOLENT GALE.

Causing Several Collisions and Wrecks.

ANOTHER KEMMLER CASE DECIDED.

A Prisoner Allowed to Carry His Pistol into the Court.

The World's Fair Commissioners Still Quarrelling.

Armed Prisoner's Bloody Work.

PANAMA, Nov. 24.—At Rivas, Nicaragua, October 23d, Tomas Martinez was arraigned for trial, charged with attempting to murder Dr. Trinidad Flores. When the accused was called upon to plead he stepped forward, and putting his hand into his pocket, exclaimed, "Gentlemen, I know the jury will condemn me, but before being condemned I must get rid of this one," and thereupon drew a revolver and shot Dr. Flores dead. Senior Gustavo Chamorro picked up a chair, but almost immediately fell, shot through the brain. Gregori Rojas, an old gentleman and father-in-law of the first victim, closed with the prisoner, who shot again wounding Rojas dangerously. The prisoner escaped, but was afterwards recaptured.

A Destructive Gale.

LONDON, Nov. 24.—Heavy gales prevail in the south and west of England, and many vessels are seeking shelter. The Danish schooner Regina has been sunk in collision with the steamer Primrose, and five of the schooner's crew were drowned. The steamer put into Copenhagen.

A violent gale is still prevailing in the English Channel and elsewhere along the coast. A number of wrecks and collisions have been reported. The steamer Uppingham is ashore at Hartland. Twenty-one persons were rescued from the steamer. The first officer was lost and a boat containing five of the crew is missing.

Judgments Affirmed.

WASHINGTON, Nov. 24.—The Supreme Court of the United States has affirmed the judgment of the Supreme Court of the State of New York in the case of Shibuya Jigoro, the Japanese murderer condemned to be executed by electricity. The court merely held that the case was entirely similar to that of Kemmler.

It also affirms the judgment of the Circuit Court of Maryland in the case of Henry John and two others sentenced to death for a murder committed during a riot on the Island of Navassa in 1889.

Foundered at Sea.

LONDON, Nov. 24.—The British steamer Calypso, from Mediterranean ports, foundered off Sandgate, after being in collision.

The crew of the Calypso have arrived at Folkestone. The collision occurred last night. The other vessel was a Spanish steamer, and it is supposed that she also foundered.

No Conclusion Reached.

CHICAGO, Nov. 24.—A secret conference was held to-day by a joint committee of the National Commission and the local Board of Directors of the World's Fair, with the view of deciding the disputed question of jurisdiction over the funds raised for the Fair and the matter of soliciting exhibits. No conclusion has yet been reached.

Death of a Banker.

NEW YORK, Nov. 24.—August Belmont died at 3 o'clock this morning. Belmont's banking house is closed, and on the door is a notice of the banker's death. His death was caused by a severe cold. Belmont was 74 years old.

Motion Denied.

BROOKLYN, Nov. 24.—Judge Pratt of the Supreme Court has denied the motion of the Trustees of the Sugar Trust to vacate the interlocutory decree entered against them.

Will Lie in State.

THE HAGUE, Nov. 24.—The remains of King William, attired in his military uniform, will lie in state in the chamber in which he died till removed to the vault.

A Material Gain.

NEW YORK, Nov. 24.—The Brooklyn police census returns show a population of 855,945. The Federal census made 808,900.

The Stock Market.

LONDON, Nov. 24.—Stocks opened stronger and higher than at the close on Saturday.

At the close American stocks were a little below the best of the day, owing to selling orders from New York.

New York, Nov. 24.—Stocks showed irregular changes from Saturday, although generally for fractions.

The sales of securities under the rule for the accounts of the broker whose suspension was announced at the opening made materially lower prices for Jersey Central, and an improvement in Nickel Plate and some others.

Jersey Central dropped from 102 to 98 1/2, and others more in some cases. The general list was inclined to rally, but these losses checked the tendency, and the pressure increased towards the end of the hour.

The market at 11 o'clock was very active and weak at the lowest.

After 11 o'clock the effect of the sales under the rule had passed away, and prices began to recover slowly, while the amount of business done showed a material falling off.

The market at noon was comparatively quiet and strong at slight declines from opening prices.

Stocks after 12 o'clock developed a decidedly strong and buoyant tone, which carried all active stocks to materially higher figures. St. Paul was specially prominent, rising on a large business from 49 1/2 to 53 1/2, while Atchafalpa and Northern Pacific preferred rose 2 1/2, and Union Pacific and Rock Island each 2 1/2. The upward movement in the sugar refineries was checked towards 2 o'clock, but the best prices were well held.

At 2:15 the market was fairly strong at the best prices of the day.

Money is easy at 3 to 5 per cent.

The last loans were at 4 per cent.

Stocks after 2:15 continued to advance, and better figures were reached all over the list, and they closed strong at the highest prices of the day.

An Old Woman Murdered.

WHITE RIVER JUNCTION (Vt.), Nov. 24.—Mrs. Miriam Marston, a widow aged 70 was murdered yesterday while alone in her house. Her head was battered in. There is no clue to the murderer.

Parnell to Retire.

LONDON, Nov. 24.—The Star, the leading Home-rule paper in England, says it has reliable information that Parnell will retire from the leadership of the Irish Nationalists.

Women To Be Admitted.

LYNN (Mass.), Nov. 24.—The first church, known as the "Mother of New England Methodism," has voted in favor of admitting women into the general conference.

Village Burning.

BUFFALO, Nov. 24.—Advices from Akron, Erie county, this afternoon state that a great conflagration is raging in that village. Particulars are unobtainable.

Triumph for Methodist Women.

Woman suffrage in the Methodist Episcopal Church is carrying the day in Iowa. Returns from nearly all the church elections in the various charges of the Northwestern Iowa district indicate that woman has triumphed by an overwhelming majority. The question at issue was whether women should be admitted to the General Conference as delegates. In each charge a regular election was held.

A Successful Bluff.

A farmer driving a team with a load of hay was halted by a highwayman near Portland, Or., last Wednesday evening. "I hauled that hay twenty-seven miles to get my money," replied the farmer, "and I am not going to give it to you. Let go my horses or I will put a bullet into you." The highwayman let him pass.

A Valuable Discovery.

The State Board of Horticulture of California and donors have presented Albert Koebeler with an elegant gold watch and a pair of diamond earrings for Mrs. Koebeler in recognition of the services of Mr. Koebeler in discovering and introducing the Australian beetle to this State, which has proved to be a parasite which destroyed the white scale on fruit and ornamental trees.

Induced to Vacate.

Haupt, the Butte, Mont., real estate man, who jumped a piece of land near Helena, built a small house on the property. The owners moved on the trespasser last Thursday, ordered him out of the house and off the ground at the end of shotguns, and set fire to the shanty. He was threatened with death if he returns.

Still Very Sick.

A. O. Porter of the GAZETTE is still very sick. He seems to have had a relapse within the last day or two.

Buckley's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, chapped hands, chilblains, corns and all skin eruptions, and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by Wm. Finley.

BORN.

GODFREY—In Reno, Nev., November 24 1890, to the wife of John Godfrey, twin daughters.

DIED.

SHORT—At Glenbrook, Lake Tahoe, Nev., November 21, 1890, Emma, daughter of Mr. and Mrs. J. M. Short, aged 3 years.

STEWART—At the Hill Ranch below Wadsworth, Washoe County, Nev., November 21, 1890, Wm. Stewart, a California pioneer, aged 34 years.

FINLEY—In Wadsworth, Nev., November 21, 1890, Eva, daughter of James Finley, aged 13 years and 5 months.

KEEP TO THE RIGHT.

Do not be imposed on by any of the numerous imitations, substitutions, etc., which are flooding the world. There is only one Swift's Specific, and there is nothing like it. Our remedy contains no Mercury, Potash, Arsenic, or any poisonous substance whatever. It builds up the general health from the first dose, and has never failed to eradicate contagious blood poison and its effects from the system. Be sure to get the genuine. A Question.

The last Legislature passed a law defining what shall constitute an actual residence in Nevada within the meaning of Article II. of the Constitution. The first section reads as follows:

"The legal residence of a person, with reference to his right of suffrage and eligibility to office, is that place where his habitation is fixed and permanent, and to which, whenever he is absent, he has the intention of returning."

Section 4 reads: "If a person removes to another State, or Territory, or foreign country, with the intention of establishing his domicile there, and making it his home, he shall lose his residence in this State."

Section 5 puts the burden of proof on the individual.

Section 7 says: "If a person removes to another State, Territory or foreign country, with the intention of remaining there for an indefinite time, and as a place of present residence, he shall lose his residence in this State, notwithstanding that he may entertain the intention of returning at some uncertain future period; and an occasional return, either for business purposes or pleasure, to the place of his former abode in this State shall not be sufficient to preserve his residence therein."

Now, without seeming impudent or showing a disposition to meddle in the affairs of the men who run the politics of this commonwealth, we should like to inquire how, under that law, the Hon. John P. Jones can be legally elected to the U. S. Senate from this State at the coming session of the Legislature? Mr. Jones and his family, when on the coast, have lived at Santa Monica, Cal., for the past ten years, and he does not pay a dollar tax in Nevada. Every private act of his shows that he has abandoned this State for all except political purposes, and has fitted up an elegant home in California. He has not been in this State sixty days in the past twelve years, but it all together, but spends all of his time, when not actually sitting as a United States Senator, in New York and California.

We ask the question and should like for some one better posted than we are on the "residence" question to answer, and for that purpose the columns of the GAZETTE are open.

Life Is Too Short.

The Carson Tribune and Appeal are engaged in a row. It started at the last Republican primary, when Parkinson was a candidate for the Assembly. The two papers began an unprofitable discussion of who was the most popular, the editor of the Appeal or the publisher of the Tribune. That harmless little warfare has been continued until the public seem to demand blood, for the Appeal is out daubed all over with war paint and its editor makes affidavit that he, with five other members of his family, "voted for Colcord," and remarks in tones that reminds one of a fog-horn, "there are three male members of the Parkinson family over twenty-one years of age, and yet only two are willing to make affidavit that they voted for Colcord. Where was the head of the Parkinson family on election day? He was openly fighting the Republican ticket."

Editorially, the editor of the Appeal announces that he is loaded with a history of the past record of Parkinson that is blood curdling and that he stands ready to give the public the benefit of it if Mr. Parkinson demands it. All this time a great big world has been waiting to hear something drop. Get behind a dry goods box, gentlemen, and settle your difficulty according to rules and not watch your dirty linen in the public's tub. Who cares whether either one of you voted for Colcord or Winters? Take our advice and quit your nonsense. Life is too short.

If there is anything we despise it is to listen to the whining of a fellow who has held a good, fat office for a term of years, because some one else is as fortunate as he was when he went in.

The California Legislature will meet at Sacramento January 5, 1891, the session lasting sixty days, under the Constitutional limit.

THE BIG HORN SHEEP.

Towering Precipices Easily Descended by the Woolly Rammer.

A Dweller of the Crags and Cliffs of the Rocky Mountains—How the Cut out Animals Escape from the Gun of the Hunter.

In a Main street cigar store, says the Kansas City Star, is a stuffed specimen of the Argali, or big horn sheep of the Rocky mountains. This animal is not only very shy, but, having an appetite for vegetation which can only be discovered among the very highest plateaus of the Rocky mountains, is a dweller of the crags and cliffs. It is seldom that it breathes a more rarified atmosphere than is found in an altitude of 9,000 feet. Its manner of life and its place of living make it a difficult animal for the hunter, and the Utes and other mountain Indians in the day of the bow and arrow looked on the killing of a big horn as a feat. They are very scarce and not at all prolific.

There has always been a large amount of lying about the big horn. Hunters had, for a time, some unexplainable experiences with them. A bunch of four or five would be seen feeding upon some high grassy mesa or table-land, which would find termination, on three sides perhaps, in a precipitous up-and-down descent of several hundred feet. The hunter, ambitious and indefatigable, would, with infinite labor, creeping up canyons and crawling among rocks, come in behind them. He would stalk in the certain hope of a shot. The big horns could not escape. A 400-foot precipice on three sides so steep that a bird could scarcely sustain itself thereon and the hunter cutting off retreat on the fourth, matters looked gloomy for the big horn. Resting himself for a moment to recover his breath and nerve, both somewhat strained in his scramble among the rocks, the hunter would move forward. On catching sight or scent of him the big horns would amble in a confident and contented way apparently to the edge of the precipice and disappear.

The hunter on coming forward would see his game racing far out in the valley 400 feet below. How did they get there? That was always the question with the Western man. It was finally concluded on all hands that the big horn jumped. As his four slender legs could scarcely be expected to sustain such a descent, the ingenious Western mind had recourse to the big horns from which the Argali gets his sobriquet. These are from four to seven inches in diameter at the base and sprout in horny spirals from the animal's head much after the fashion of the horns of that engine of destruction the common Meino ram.

When the big horn leaped, said these Munchausens, he turned head downward and alighted on these horns. They had seen him make the trip, they said, and they would thereupon enlarge on the downward whizzing plunge of any thing from 300 to 2,000 feet, according to the mendacity of the raconteur. They would tell how he descended like some curved woolly boomerang, and rebounded from his horned frontlet to a height of forty feet and then ambled away bleating with pride and pleasure at his success. So accurate a naturalist and so careful a writer as Mayne Reid wrote a book about it and in his story cast his big horns over precipices of 1,000 feet without a scruple.

But the Argali does not indulge himself in the flights ascribed to him. He has too much good sense. A jump from such heights would smash to smithereens a big horn made of steel. But the matter is not left to doubtful argument. Their manner of descent has been discovered and is easy enough—for a big horn—when once you witness it. All through these mountains you will find seams and rifts which split the precipices from top to bottom. The rock has been torn asunder by some force of nature and the result in many instances is a cleft or split where the walls are not separated twenty feet and yet run from the bottom to the top of the cliff some hundreds of feet. That the rock sides were once together may be seen in the wells or protuberances of one wall corresponding to the depressions in the other.

The big horn is the prince of caution. Before he is found anywhere he has made a complete war map of the neighborhood, which he carries locked in his woolly head. When he descends himself on some dizzy plateau he is always certain of an outlet. No cut de me for him; he is too good a mountaineer for that. Before he nibbles a mouthful of the crisp herbage, he has looked up one of these deep rifts which go down to the valley below. The moment he is disturbed he makes straight for it. Arriving at the verge he never hesitates but jumps boldly out and down, aiming for the other side of the deep crevice. This he strikes with his four hoofs, which are hard as cast steel, and at once leaps back for the other side. He descends perhaps fifteen or eighteen feet at a leap, and as he could not retain a foothold for a moment at any one of the places he strikes the rock, he never pauses in his zigzag leaping until the last one brings him to the valley hundreds of feet below. That crevice is the big horn's stairway and that is the way he descends.

The Height of Clouds.

Prof. Moller, of Karlsruhe, has made some interesting observations on clouds. The highest clouds, cirrus and cirro-stratus, rise on an average to a height of nearly 30,000 feet. The middle clouds keep at from about 10,000 feet to 23,000 feet in height, while the lower clouds reach to between 3,000 feet and 7,000 feet. The cumulus clouds float with their lower surface at a height of from 4,000 to 5,000 feet, while their summits rise to 10,000 feet. The tops of the Alps are often hidden by clouds of the third class, but the bottom of the clouds of the second class, and especially of the thunder clouds, often enfold them. The vertical dimensions of a cloud observed by Prof. Moller on the Nettleberg was over 1,300 feet; he stepped out of it at a height of about 3,700 feet, and high above the mountain floated clouds of the middle class, while walls of mist lay in the ravines and clefts. The upper clouds were growing thicker, while the lower ones were dissolving, and soon it began to rain and snow.—London Daily News.

OUR COLUMN.

These Are the Books

We Are Giving Away.

This book contains 480 pages; is eight and one-half inches long, six inches wide and two inches thick. It is printed on extra heavy paper and is handsomely bound, with embossed cover and gilt-lettered back.

It is different from all other works ever published. First—it teaches those who have it how to tell what the matter is when a person gets sick.

All similar books tell what to do if you know what the disease is. This book tells you HOW TO DETECT THE DISEASE, and then what to do for it.

No other Book Published does this.

Second—When a person is really attacked by a dangerous disease, it enables you to know the fact, and in such cases its advice is: "Send for a competent physician at once." But in all ordinary cases, such as can be easily cured, it gives full directions for treatment.

Third—it is not confined to the practice used by any one class of physicians; but it gives, separately, and for each disease, the methods used by each of the different schools of medicine, and in ALL CASES THE PRESCRIPTIONS ARE MADE BY THE MOST EMINENT MEN in their respective modes of practice. This makes the work specially suited to the needs of every family, no matter what medical school they prefer.

No other Book Published does this.

TESTIMONIALS:

I have examined the advance sheets of "Our Family Physician." It gives me pleasure to commend the work as correct in its mode of treatment of disease, and it deserves wide circulation.

J. F. COOK, M. D., Professor in Burnett's Medical College, Chicago.

After examining the publication "Our Family Physician" I can fully endorse the opinions expressed in it, and I believe it is the most practical, sensible and serviceable of all the books of the kind.

R. A. GUNN, M. D., Professor of the Burnett Medical College.

The book contains a valuable chapter of symptoms, which will aid wonderfully in diagnosing diseases, and the proper remedies are given for Allopathic, Homoeopathic, Eclectic, Hydropathic and Herbal treatments.

We have a number of the books on hand, and we invite inspection.

There are three chapters in the "Family Physician" which are worthy of special mention, namely, those on "Diseases of Women," "Diseases of Infants" and "Care of the Sick."

The first of these is a model of its kind. It is chaste in language, contains no disgusting pictures, and is the most practical, sensible and serviceable of all the books of the kind.

This chapter alone is worth many times the cost of the book to every mother, even if it had to be purchased at its regular price. The other chapters referred to are equally well written and valuable. See "Our Plan" on 4th page.

It is customary with newspapers to give premiums to new subscribers only; but the publishers of the WEEKLY GAZETTE mean to revise this old rule; they intend to do as well, at least, by their old subscribers—those who have stood by the paper in years past, and paid their money for it "right straight along."

We propose to show our appreciation of this old rule by giving a substantial manner; and as the premiums to be offered is expensive, and as our express object in offering it is to increase our list of subscribers, we will ask every old subscriber who may remain his subscription, thus receiving the valuable premium, to constitute himself a missionary, and thus in securing at least ONE new subscriber. Come, and bring us one new name and get a book that will be of inestimable value to you.

The new subscriber also gets a book.

If the book is to be sent out of this office, 20 cents must accompany order to pay postage.

JOTTINGS.

For as comfortable a room, as neat a bed and as palatable a meal as can be had in town, patronize the Arcade Hotel.

The Riverside Hotel continues to receive the patronage of those who enjoy and appreciate first-class accommodations.

There is no article in the line of the best canned goods that cannot be had at E. C. Leadbetter's. He keeps no second-class goods.

Miss Emma Gibb's Virginia street millinery store continues to be patronized by those in want of the latest in both hats and bonnets.

For the best brands of tobaccos, cigars and cigarettes, patronize C. J. Brookins' variety store. Fresh candies manufactured daily.

Mantou Mineral Water from Mantou Soda Springs, Colorado, the queen of table water, by the dozen or case at H. J. Thyes'. Try it and you will use no other.

His many years of experience enables J. J. Becker to know exactly how to handle the different brands of malt liquors in order to tender to the tastes of all his patrons.

Wholesale candy makers admit that they cannot use as good material as they would like to, because country dealers want cheap. The Palace Bakery does not bid for such trade.

For both writing and copying inks, mucilage and every kind of the best stationery known to the trade, patronize C. A. Thurston's news depot, where also is kept a complete assortment of both pens and pencils.

"Is this the best?" Is the question often asked, when medicine is wanted. The following are a few of the medicines of known reliability, sold by Shoemaker & Co., druggist of this place. They have many other excellent medicines, but these are worthy of special mention:

Chamberlain's Cough Remedy, famous for its cures of severe colds, and a preventative for croup. Price 50 cents per bottle.

Chamberlain's Pain Balm, a general family liniment and especially valuable for rheumatism. Price 50 cents per bottle.

Chamberlain's Colic, Cholera and Diarrhea Remedy, the most reliable known medicine for bowel complaints. It is especially prized by persons subject to colic. It has cured many cases of chronic diarrhea. Price 25 and 50 cents per bottle.

St. Patrick's Pills, for disorders of the liver and bowels, a vigorous but gentle physic that cleanses and renovates the whole system. Price 25 cts. per box.

Chamberlain's Eye and Skin Ointment. For itching, salt rheum, scald head, eczema and chronic sore eyes. Price 25 cents.

Electric Bitters. This remedy is becoming so well known and so popular as to need no special mention. All who have used Electric Bitters sing the same song of praise. A purer medicine does not exist and it is guaranteed to do all that is claimed. Electric Bitters will cure all diseases of the liver and kidneys, will remove pimples, boils, scit rheum and other affections caused by impure blood. Will drive malaria from the system and prevent as well as cure all malarial fevers. For cure of Headache, Constipation and Indigestion, try Electric Bitters. Entire satisfaction guaranteed or money refunded. Price, 30 cts. and \$1 per bottle at Finner's drug store.

Consumption Incurable? Read the following: Mr. C. H. Morris, Newark, Ark., says: "Was down with Abscess of Lungs, and friends and physicians pronounced me an incurable consumptive. Began taking Dr. King's New Discovery for Consumption, am now on my third bottle, and able to oversee the work on my farm. It is the finest medicine ever made." Jesse Middleton, Decatur, Ohio, says: "Had not been for Dr. King's New Discovery for Consumption I would have died of lung troubles, was given up by doctors, am now a robust man, and feel like a new man." Try it. Sample bottles free at Finner's drug store.

A Word to Ladies. Ladies who desire a beautiful clear skin, free from pimples, boils, blotches and other eruptions, should commence at once to use Dr. Gunn's Improved Liver Pills. They will also remove that heavy look about your eyes and make them bright, and will cure headache from whatever cause it arises. Remember, you are only required to take one small pill at bedtime, which is coated with pure sugar, and will not grip or produce any unpleasant sensation. Sold at 25 cents by S. J. Hodgkinson.

The question has been asked, "In what respect are St. Patrick's Pills better than any other?" Try them. You will find that they produce a pleasant cathartic effect, are more certain in their action, and that they not only physic but cleanse the whole system and regulate the liver and bowels. For sale at 25 cents per box by Shoemaker & Co.

A Sure Cure for Piles. Itching Piles are known by moisture, like perspiration causing intense itching when warm. This form, as well as blind, bleeding and protruding, yield at once to Dr. Bosanko's Pile Remedy, which acts directly on the parts affected, absorbs all inflammation and effects a permanent cure. 50c. Druggists or sold by S. J. Hodgkinson.

Advice to Mothers. Mrs. Winslow's SOOTHING SYRUP should always be used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Twenty-five cents a bottle.

If you spit up phlegm, and are troubled with a hacking cough, use Dr. J. H. McLean's Tar Wine Lung Balm.

THE PHILOMATEAN SOCIETY.

A Fine Program Every Friday Afternoon.

The above-named literary society recently organized at the State University is presenting exceptionally fine programs every Friday afternoon. Their work as a society is producing fine results and arousing a spirit of activity among the students in the direction of musical and literary work. The young men have organized a "University Glee," and this in connection with the instrumental attainments of the individual members results in interesting and instructive programs.

Among the fine numbers of Friday's program was an opening song by the choir. The deep-toned bass and musical tenor of the various members of the choir filled the room with sweet strains. They were repeatedly encouraged.

There was a violin duet by F. H. Norcross and E. Hardach which was a marvel of execution. It was a matter of much surprise that the University possessed such meritorious talent in this line. Their execution was skillful and their expression sweet. It is to be hoped that efforts will be made to bring out this latent musical talent in the University, as with some little practice excellent musicals might be given.

George Bliss read an essay on "Duty," which showed the result of careful study and it was well received.

Author Sheriff's septet on "Roman History from 256 B. C. to 44 A. D.," was a neat presentation.

The debate on the question "That the Government should own the Railroad and Telegraph Lines," was ably sustained by both sides, and showed a familiarity with the subject that is a credit to young citizens. The affirmative was upheld by Messrs. Barney and Robinson and the negative by Messrs. Frey and Sessions. The negative was successful. COMET.

GRATEFULLY ACKNOWLEDGED.

The President of the Colored Club Receives a Gratifying Communication.

The following letter was received this morning by Dr. A. Dawson from Governor-elect R. K. Colcord, which explains itself:

AURORA, Nov. 22, 1890.

To Dr. A. Dawson, President, and the Officers and Members of the Colored Club, Reno, Nev.—Dear Sir and Gentlemen: I beg to extend to you herewith my most sincere thanks and congratulations upon the result of your very efficient and valuable services in the interest of the Republican party and myself in your county.

I am very proud of the honor conferred by you in naming your organization, and exceedingly grateful for the very effective work performed in my behalf.

The result of the election in your county was extremely gratifying, realizing as I do the high standing and great popularity of my opponent, who is a citizen of your county, and well known to all, while I was totally unknown to most of your people. They could not have been blamed for opposing me, and I should not have complained if I had failed to carry the county. Taking these matters into consideration, I must regard the work performed by you and other Republican friends as having required the best of generalship on the part of the leaders and untiring labor and exertion by the members.

Trusting your organization will not disband until you have secured a majority of 200 votes in Washoe county for the next Republican candidate for President of the United States, I am very truly yours,

R. K. COLCORD.

ESMERALDA COUNTY.

General Prosperity in a Rich Section of the State.

James A. Yerington, Superintendent of the Lapanta mine in Esmeralda county, returned from Salt Lake this morning. He informed a GAZETTE reporter that they made a fresh and rich find in the Lapanta other day and that Superintendent Colcord uncovered some exceedingly rich ore in the mine he is looking after in Aurora.

Mr. Yerington says business in Esmeralda is looking up along the line. Her borax fields are yielding well, all her mines looking fine and general prosperity is the result. He says that Esmeralda could support 3,000 more people than she has, on the present showing, and with her resources fully developed, six times that number.

Reunion of the Music Department of the School for Girls.

Miss Quail, assisted by Mrs. Mills and the members of the class of 1891, will be pleased to meet all present and former members of the Department of Music of Bishop Whitaker's School on next Wednesday evening, November 28th, from 8 to 10 o'clock. The members of Trinity Church choir are also cordially invited to be present.

The Place to Buy.

A. Nelson, of the Free Intelligence Office, Virginia street, carries a fine stock of the best tobaccos, Havana and Key West cigars, notions, cutlery, gentlemen's underwear, overalls, buckskin gloves, suspenders and Dr. Willey's Discovery.

Knights of Honor.

On the occasion of the Knights of Honor masquerade ball on Thanksgiving night the New Orleans Mardi Gras will be reproduced in miniature. Masquerade tickets, \$1 each; spectators' tickets, 50 cents each.

Turkey shooting.

On Wednesday, November 26, at 10 o'clock A. M., north of Reno, on Sierra street.

Never Travel Without Them.

Persons should never travel without a box of BRANDSTEDT'S PILLS. A few doses taken before going on ship will prevent sea sickness, and one pill every night on shipboard will counteract the coasting action of the sea air. When sick, troubled with pain, colds, or dizziness, or having rheumatism take from three to five pills or if they do not operate in an hour or so take three more.

BRANDSTEDT'S PILLS are purely vegetable, absolutely harmless, and safe to take at any time.

Sold in every drug and medicine store, either plain or sugar coated.

PERSONALS.

John Snodgrass went below last evening.

E. B. Yerington and D. A. Bender arrived from Carson last night.

Geo. Humphrey, the stock raiser and dealer, was in town this morning.

A. De Neuf, the Virginia City jeweler, returned from below this morning.

Louis Dean and daughter Emma returned yesterday morning from California.

C. W. Friend of Carson City returned yesterday morning from San Francisco.

General R. M. Clarke went to Winnemucca this morning to resume the Bliss water suit.

Oliver Roberts of the Arlington Hotel at Carson was a passenger for San Francisco last night.

Congressman Marion Gibbs of California passed east this morning on his way to Washington.

I. C. Sexton of the northern stage line left on the N.-C.-O. railroad for Amadee this afternoon.

Captain F. C. Lord, who has been on a trip to San Francisco, returned on this morning's express.

Senator C. H. Sproule and wife of Elko were in town yesterday morning on their way to Virginia City.

Joe Wells of Alameda Co., Cal., the old White Pine, Eureka and Bodie foundryman, is in town to-day.

E. D. Kelley, who for a week had been visiting in Reno, returned to Winnemucca yesterday morning.

U. S. Internal Revenue Collector Ferd Reid, and wife, arrived from Winnemucca last Saturday evening.

Miss Avery Yerington, who has been spending two years in Detroit, returned from the East this morning. She was met here by her brothers, Ed and Hume.

Louis Hanchett, the Esmeralda mining man, came up from the Bay this morning and goes to Esmeralda to start up work on the old State Line mine, which has been idle for years.

Eugene Rail, formerly of Carson, but now located at Butte City, Montana, arrived in Reno yesterday. He is off on a vacation trip and will go to San Francisco and back to Montana by the northern route.

F. J. Powers of Eagleville, and of the graduating class of '90 of the State University, arrived in Reno yesterday in charge of a band of 350 head of beef cattle belonging to Minto, destined for the San Francisco market.

James Cross, the old-time Superintendent of the Holmes and Northern Belle mines of Candelaria, passed through Reno yesterday on a visit of inspection of mines in Cherry Creek.

For the past three years or more Mr. Cross has had charge of the old Fremont estate in Mariposa county.

BREVITIES.

Local and General Intelligence.

Read Mrs. Mundell's 50-cent ad. of furniture for sale and house for rent.

In Hyman Fredrick's watch-club drawings Saturday night, Dr. Dawson drew the watch in club No. 1, and H. A. Waldo in club No. 2.

The GAZETTE is informed that the delinquent tax list of Ormsby county amounted to only \$247.05—a pretty good showing after a bad winter.

By consulting the GAZETTE's advertising columns, which are always sparkling with good bargains, the consumer will be doing himself a good turn.

A storm has been predicted in these parts for two weeks, and now comes the signal service with a stern winder. If it comes, General Irish should have the credit of it.

A good lecture and clever entertainment is promised by Dr. Fleming, at Armory Hall, to-night. No charge is made, and seats will be especially reserved for the ladies.

Jack Godfrey had a smile on both sides of his face this morning, and he looked as happy as in the days of old White Pine, when horn silver was plentiful and without any discount. The cause of Jack's smile is to be found under the head of "Births."

It is estimated that the surface of an acre of ground, one foot deep, contains about 4,000 pounds of phosphoric acid, 8,000 pounds of potash, and 16,000 pounds of nitrogen. Much of this, however, may be beyond the reach of plants, by not being in an available form.

An eminent breeder of dairy cattle gives it as his experience that a cow with a bag "milking down, to feel like a rag," when the milk is out, is not one to produce a great butter yield. On the contrary, his observation has been that the greatest butter producers never show this tendency of collapsed bag after being milked, but rather the opposite.

Seriously Ill.

William Hanna, the wood sawyer, was found in an unconscious condition at his house this morning, and Drs. Phillips and Thomas were summoned in haste. An examination showed that he was suffering from apoplexy, and was so far gone when discovered that nothing could be done for him.

Read and Learn.

Read the new ad. of Abrahams Bros. in to-day's GAZETTE, and govern yourself accordingly. They carry a fine stock of goods, and are bound to sell, so give them a call. The gent's furnishing goods department is especially attractive. Read the ad.

How Is Your Eyesight?

Hear Dr. Fleming at Armory Hall to-night on diseases of the eye, ear, nose and throat.

The Problem Solved.—An Unrivalled Blood Purifier.

Found at last in Hibbard's Rheumatic Syrup.—A remedy which expels all poisonous matter and taints of disease from the blood. A well known citizen of West Lebanon, Ind., testifies to its value.

Gentlemen: It affords me pleasure to state that my wife has received greater benefit from Hibbard's Rheumatic Syrup than from any medicine she has ever taken. We have used six bottles, and find it the best family remedy and the greatest blood purifier we have ever used. It is truly all that is claimed to be by its founder. You cannot recommend it to highly. Yours truly,

West Lebanon, Ind.
Sold by S. J. Hodgkinson. Prepared only by the Charles Wright Medicine Company, Detroit, Mich.

Why cough and suffer with a cold, when Fryer's Astringent will give immediate relief. It contains no opium. Price 50c. Sold by Wm. Finner. The original and genuine Astringent preparations bear the facsimile signature of D. F. Fryer.

A Free Lecture and Entertainment at Armory Hall To-night.

Dr. J. E. Fleming, a well-known specialist and traveler, will deliver an interesting lecture on the subjects of physiology, anatomy and hygiene, at Armory Hall this evening. He will also operate free upon the stage for the removal of warts, tumors or cancers, and extract teeth with lightning-like rapidity without pain. He has a record of 165 teeth extracted in 15 minutes. At the conclusion of the lecture, to send his audience home in good humor, Dr. Fleming will perform various experiments in legerdemain, hypnotism, mind reading, etc. It is entirely free and seats will be specially reserved for the ladies.

San Francisco Meat Market.

Following are the rates for whole carcasses from slaughterers to dealers in San Francisco:

BEEF—First quality, 5 1/2¢; second quality, 5 1/4¢; third quality, 4 1/2¢. PORK—Live Hogs, on foot, grain fed, heavy, 5 1/4¢; light, 4 1/4¢; dressed hogs, 6 1/2¢. MUTTON—Quotable at 7 1/2¢. LAMB—Quotable at 9¢. VEAL—Live Veal, on foot, grain fed, heavy, 5 1/4¢; light, 4 1/4¢; dressed veal, 6 1/2¢.

A Broken Connecting Rod.

The Carson & Colorado passenger train yesterday was delayed three hours by breaking a connecting rod on the locomotive and bursting the boiler at a point twenty miles south of Hawthorne. A handcar messenger ran to the relief of the disabled and delayed train.

HE WAS ASHAMED.

To Ask Again, but His Frank Letter Got It for Him.

A few months ago one of the unfortunate inmates in the San Francisco Alms-house was inspired by the sensational statements in the newspapers with the belief that Joy's Vegetable Sarsaparilla would help him. But without money, how to get it was the question. Finally he wrote to the Edwin W. Joy Co., appealing to their generosity, and it was not unheeded, the coveted preparation being sent by the next parcel delivery. Its effect is best told in a subsequent letter, from which we quote the following:

"I suppose you know me by this writing, and my circumstances and condition. Although improving, I ask of your generosity for another bottle of your Joy's Vegetable Sarsaparilla. Its laxative action is perfect. It has so thoroughly regulated my system, that my constipation, flatulency, and headaches are all better. I feel ashamed to ask in this way, but what shall I do? I might not need any more, but I am now so anxious to keep it up, but you see how it is."

It was sent, and he can get more if he needs it.

MANUFACTURED ONLY BY THE CALIFORNIA FIG SYRUP CO. SAN FRANCISCO, CAL. LOUISVILLE, KY. NEW YORK, N.Y.

ABRAHAMS BROS., Proprietors.

19 COMMERCIAL ROW, RENO, NEV.

Branch Store, 109 Main St., Walla Walla, Washington. nov24tt

A Prosperous Section.

B. F. Leete returned from a 35-days trip to Inyo county, Cal., yesterday. He reports things lively and that the crops were unusually large and fine this year. The hay crop is exceptionally heavy and the fruit crop unexcelled in any part of the country, both quantity and quality. He reports the market for their produce a little dull.

Free Lecture To-night at Armory Hall.

Dr. J. E. Fleming will lecture to-night on physiology, anatomy and hygiene. The Logan (Utah) Journal says he is a rattling good talker and his horse sense, besides a rare combination. He ought, therefore, to be a good physician. Hear him.

The circulation of the blood quickened and enriched—bears life and energy to every portion of the body; appetite returns; the hour of rest brings with it sound repose. This can be secured by taking Dr. J. H. McLean's Sarsaparilla.

ONE ENJOYS Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, head aches and fevers and cures a habitual constipation. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, its many excellent qualities commend it to all. A Pleasant Room.

OR ROOM FOR RENT, NEAR THE Porter, GAZETTE office, for particulars,

Tourists Can Now Reach the Mountain Tops with Ease.

Completion, at a Cost of Over Half a Million Dollars, of the Mountain & Pike's Peak Railway—How the Engines Climb the Mountains.

This stupendous and wonderful enterprise was commenced about two years ago for the purpose of transporting tourists and others to the pinnacle of Pike's Peak, where an opportunity is afforded for beholding scenery of surpassing grandeur and magnitude. It is, according to the Chicago Tribune, the most novel railway in the world, and renders almost insignificant, by comparison, the famous cogway up Mount Washington, and the incline railway up the Rigi in Switzerland.

Its exact length is 46,158 feet, or nine miles. The altitude of its initial station at Manitou is 6,600 feet; at the summit it is 14,300 feet above the level of the sea, the total ascent being 7,500 feet, or an average of 846 feet per mile. The maximum grade is 25 per cent., over 22 per cent. of the line having a grade of 22 1/2 to 25 per cent. The line is pretty crooked, even for an adhesion road, and has many sharp curves, though not more than some other roads of a similar nature. Of straight line there are 28,375 feet, and of curved 14,477 feet, about 39 per cent. of the line being on corners. The sharpest curves are 16 degrees, of which there are quite a number. The culverts are of stone and the foundations are firmly secured and further protected and sustained by wide embankments. The rails are laid on red spruce and oak ties, 8-inch space, 7 inches deep, 9 feet long, laid 20 inches centers. At intervals of 200 to 600 or 700 feet, dependent upon the grades, anchorages are made by straps fastened to the ties and carried up-grade to eye-bolts set in blocks of masonry. As the whole track is consolidated, not only by the ordinary spiking, but by the extra fastenings of the track-rail, it is believed that these anchorages will be amply sufficient to guard against the movement of any part down grade. The track-rails are forty pounds per yard three and a half inches high. Between those in the center of the track are placed two cog-rails made of the finest cast steel. A special chair has been manufactured for these rails at Abt's great foundry in Germany.

On the Mount Washington road and on that up the Rigi the middle rail is constructed upon the principle of a ladder. This is cumbersome, provocative of great noise, and only allows a speed of two and three-fourths miles an hour. The speed attainable on the Pike's Peak road is seventeen miles an hour, but the maximum rate will not be over eight miles and the average not more than five miles. One cog-rail would be amply sufficient to do all the work, but two are inserted to insure safety. The cogs are so fitted that the variation of a fiftieth part of an inch in one of them would cause the whole rail to be rejected.

The engines, three in number, each weighing twenty-five tons, were built by the Baldwin Company, of Philadelphia, and are of the latest and most improved pattern. There are three wheels on each side of the engines which act as guards and to sustain weight. There are three driving cog-wheels, two of which are in constant use, and the third is reserved for emergencies. The propelling power is applied directly to a drum above the two rear drivers. The front drivers are moved by a walking-beam running from the second driver. The brake apparatus is especially strongly built. On either side of the cog-wheels is a corrugated surface which the heavy steam brake operates with tremendous force. The engines are also fitted with hand brakes, and an additional device (the Le Chatelier brake) by which the cylinders act as brakes. The tank holds 700 gallons of water and is filled four times in each round trip. One engine will push two cars weighing 42,000 pounds loaded.

Six passenger, two observation and two flat cars form the equipment. Each car has twenty-five seats with a capacity for carrying sixty persons per trip, and is also supplied with two tension brakes to be worked by hand. The cars are not tilted, but the seats are so arranged as to give the passenger a level footing. A unique feature of the road is that the engine instead of drawing pushes the cars.

From Manitou Station, near the upper iron springs, the line runs up Engleman Canon and follows this gulch to the headwaters of Ruston creek. This stream is a typical mountain brook, with clear, sparkling waters that come down the mountain side broken into numerous little cascades and foaming rapids. There are two pretty falls in Ruston creek, called respectively the Shelter and the Minnehaha. A succession of small but beautiful parks is reached. About two miles from Manitou, at "Artist Glen," splendid views are obtained of the surrounding country. The Garden of the Gods is plainly visible. About half way up is the Half-Way House, a delightful mountain resort. Affording those who desire to spend a night in the mountains comfortable shelter. Reaching the headwaters of Ruston creek the road curves to the southwest and Windy Point is attained, where another magnificent view of Manitou, the Garden of the Gods, Colorado Springs, and the vast plains beyond is secured. Here the road begins to climb rapidly, crosses to the west side of the huge mountain, and then takes a bee-line to the summit.

A Society with a Name.
As a proof that a weakness for high-sounding names is not confined to the people of the United States, a newspaper tells of a London organization which calls itself "The Society for the Better Promotion of Relaxation from Business Care and Enjoyment during Luncheon Hours in the Municipality of London."

Electric Fire Detector.

The latest electric device is for detecting fires. When the temperature of a room reaches a dangerous point the composition of the little button starts the bell to ringing and indicates the number of the room in the office. The alarm is kept up until the temperature of the room is reduced to below the danger point.

Two squadrons of cavalry in the Russian army are to be formed exclusively of natives of the Caucasus.

At Lorient Arsenal, in France, a great iron-clad war vessel of 11,000 tons is nearly completed. It is strongly armed with immense cannon in revolving towers.

Thirty tons of Kola nuts have been ordered for the German army, experiments having shown their utility in enabling men to endure severe and prolonged labor.

A new kind of lance has been introduced into the German cavalry regiments. Its peculiarity lies in the fact that it is constructed wholly of steel, the necessary lightness being secured by making the shaft hollow.

A novel feature marks the English naval maneuvers this season. As each war ship arrives at Devonport a number of officers and men are reported wounded and are speedily taken ashore, some in coty steamers, special provision having been made beforehand for their reception in hospital.

The introduction of a new rifle into an army, having a reduced caliber, and capable of being used as a magazine gun, is now a certainty, and the Duponts have received an order for 100,000 cartridges with which to test small arms of thirty caliber. This introduction will hardly be long delayed.

It is stated that the Russian War Department has now definitely decided to have a permanent balloon depot at Liding, near Chatham. The proposal is an important one for the district, as, in the first place, it means an expenditure of £20,000 or £30,000 upon building and afterward the maintenance of a staff there.

Instruction in agriculture and forestry has been introduced into the Belgian Army, intended for such soldiers as expect to return to the farm on retirement from military service. Land or experimental and practical purposes, acquired near garrison towns. The scheme offers the double advantage of turning out scientific farmers and providing supplies for the army.

A doctor of Vienna has invented a fluid, the use of which, he claims, will minimize the horrors of war. The fluid is to be placed in a shell, which is so constructed that it will burst in falling or striking any object offering but slight resistance. The fluid, upon being released, so affects persons inhaling its odor that they immediately become unconscious and remain in that state half an hour or more.

M. GEORGES REACHE, an official reporter in the French Parliament, has calculated that between 1871 and 1900 England spent on her navy, 4,335,916,526 francs; France, 3,636,952,776; Germany, 1,000,734,404; Austria, 470,115,677; Italy, 1,101,165,553; Russia, 1,929,639,702. Of the whole amount expended by her, France devoted 35 per cent. to the construction of new ships; Russia, 80 per cent.; England, 41 per cent.; Austria, 44 1/2 per cent.; Germany, 57 1/2 per cent.

The General Lieutenant of the Zoritsky Regiment conceived the idea of trying the efficiency of the "Ochlo-niks" (a sort of athletic division) in his command. He ordered a company of sixty-seven men to swim across the Volga in a place where the river is over one and a half versts wide, with two officers at the head and one in the rear. When the swimmers had made about a third of the distance a steamer was noticed coming on them at full speed. The officer at the head of the company ordered: "Halt, with faces upward!" and was obeyed as promptly as if on the parade ground. The company waited until the steamer passed and then proceeded until they reached the opposite shore.

FRESH ETYMOLOGICAL FACTS.

The word "honeymoon" is derived from the German, and has its significance from the fact that the Germans formerly drank mead—a sweet liquid made of honey—for thirty days after the wedding.

The name "Johnny cake" is said to be derived from "journey cake," because emigrants journeying from New England to the West were obliged to bake their Indian meal cakes in the ashes of their camp fires.

MALCOLM TOWNSEND, the author of a book of "Curious Facts," says that the word Manhattan is traceable to the Spanish mamas, drunkenness; monados, manadas, manates, a place of drunkenness. As a confirmation of this theory, Mr. Townsend says that Verrazani, a Florentine navigator, who landed on the island in 1492, called it the Isla Mananata because he gave the Indians lots of liquor and made them all drunk.

SOME religious journals are printing a paragraph to the effect that the late Prof. Hitchcock, of this city, held that tobacco was known to the ancients and that its name was derived from Bacchus, the god of wine, says the New York Tribune. The weed was offered to Bacchus as a votive offering, and as the native case of Bacchus in Greek is "To Baccho," the narcotic gradually got that name. Of course any scholar will at once see that Dr. Hitchcock was too good a Grecian to have fathered such an absurd etymology. As a matter of fact the late President Hitchcock, of Amherst, made the suggestion in question as a bit of pleasantry in a humorous book which he once published.

EVERYBODY knows what a picnic is, but most people would find it hard to tell how it got its peculiar name. Yet the derivation of the word is simple enough and sensible, too. When a picnic was being arranged for the custom originally was that that those who intended to be present should supply the eatables and drinkables. A list of these necessities having been drawn up, it was passed round and each person picked out the article of food or drink that he or she was willing to furnish, and the name of the article was ticked, or ticked off the list. The open air entertainment thus became known as a "tick-and-nick." The custom is said to date from 1802, so that the picnic is wholly an institution of the nineteenth century.

Kildare's Latest Contribution.
A County Kildare girl just landed weighs 234 pounds, stands 6 feet 7 inches in her stockings and is but sixteen years of age. What a policeman she would make if it was not for her sex.

IF A BODY MEET A BODY

the result is a collision, whether "coming thro' the eye," or not. Life is full of collisions. We are constantly colliding with somebody or something. If it isn't with our neighbors it is with some dread disease that "knocks us off the track" and perhaps disables us for life. Women especially it seems, have to bear the brunt of more collisions and afflictions than mankind. In all cases of nervousness, bearing down sensations, tenderness, periodical pain, sick headache, congestion, inflammation, or ulceration Down all "female weaknesses," Dr. Pierce's Favorite Prescription comes to the rescue of women as no other medicine does. It is the only medicine for women, sold by druggists, under a positive guarantee, from the manufacturer, that it will give satisfaction in every case, or money paid for it will be refunded. See guarantee on bottle wrapper.

Copyright, 1888, by WORLD'S DIS. MED. ASSN.

Dr. Pierce's Pellets

regulate and cleanse the liver, stomach and bowels. They are purely vegetable and perfectly harmless. Dose: One or two, sold by druggists. 25 cents a vial.

United States Land Office.

SACRAMENTO CITY, CAL.

September 30, 1900.

NOTICE IS HEREBY GIVEN THAT IN compliance with the provisions of the act of Congress of June 3, 1896, entitled an act for the sale of timber lands in the State of California, Oregon, Nevada and Washington Territory, Allen C. Bragg, of Reno, county of Washoe, State of Nevada, has this day filed in this office his sworn statement No. 1200, for the purchase of the 2 1/2 of Section 36 of Township No. 17 east, M. D. M., and will offer proof to show that the land sought is more valuable for its timber or stone than for agricultural purposes, and to establish his claim to said land before the Register and Receiver of this office, at Sacramento, Cal., on Monday, the 29th day of December, 1900.

He names as witnesses: Charles A. Bragg, R. L. Fulton, James Mayberry and Thos. K. Stewart, all of Reno, Nevada.

And all persons claiming adversely the above described lands are requested to file their claims in this office on or before the 29th day of December, 1900.

SILVER HETZEL, Register.
